Program:  

Academic Enhancement Academy

Program Description:  
This program supports the University’s mission to prepare highly skilled, competent, economically and socially aware graduates to meet life’s challenges and demands, and enables them to work and live productively in a dynamic, and global society. The vision of the academic Enhancement Academy is to promote the transformation of graduating high school seniors into a successful academic community of college students. Their experiences will include communication, reasoning, technology, and cultural awareness.

How long is this Program?  
The Academic enhancement Academy is schedule to run for six weeks starting from June to July 2012.

Will I need to bring money for fees?  
We anticipate that your 2011-2012 Financial Aid package (2011 W-2 and 1040 forms required together with verifications) will cover the majority of the cost of attending the Academic Enhancement Academy, however, should there be additional fees you will be notified by the university.

How and when do I register for the program?  
Orientation and Registration will be held. A general session outlining our program, introduction of peer mentors, program director and advisor and other key University officials will be followed by a campus tour and lunch.

Course Offerings:
